29 April 1974

25X1

MEMORANDUM FOR: D/DCI/IC

THROUGH : Mr. Lapham
Dr. Clarke

SUBJECT : Scientific Intelligence Community
Meeting--11 April 1974.

25X1 1. The first SIC meeting under the new Chairman, [redacted] had no agenda items, however, the four following points were discussed:

- a. Areas of SIC responsibility.
- b. Priorities of each area.
- c. Proposal of subcommittees and working groups.
- d. Organization of subcommittees and working groups.

The Chairman requested feedback within two weeks of the next meeting so he could include their opinions into an SIC charter. Throughout the meeting there was participation by all members. The greatest discussion ensued on the role the SIC should play; members were concerned about influence in the USIB structure. Before any definitive position could be established, the committee questioned the USIB decision concerning SIC's divesting itself of military weapons applications.

2. The following were miscellaneous topics discussed:

- (a) The Chairman gained committee approval for [redacted] CIA to chair the BW/CW Intelligence Subcommittee.
- (b) The SIC members supported the Chairman's proposal to change the committee's name to the Scientific and Technological Intelligence Committee.
- (c) The committee approved a
